# WHAT IS TON NETWORK V

The TON (Telegram Open Network) is a blockchain network project developed by Telegram, a widely-used messaging application globally. TON is designed to provide a blockchain-based platform for decentralized applications and financial services. This project has garnered significant attention from the blockchain community due to Telegram's millions of users worldwide, with plans to integrate the blockchain platform into its application.

- Scalability: TON is designed with high scalability, capable of processing millions of transactions per second. This makes TON
  a large and flexible decentralized platform, suitable for complex applications.
- Smart Contracts and Decentralized Applications (DApps): TON supports the deployment of smart contracts and DApps, fostering opportunities for innovative applications ranging from financial to social uses.
- Security and Safety: TON employs advanced security mechanisms like Proof of Stake (PoS) to ensure the network's safety and security, fostering trust in transaction fairness and transparency.
- Convenience and User-Friendliness: With integration directly into the widely-used messaging app Telegram, TON can potentially facilitate the easy adoption and deployment of services for millions of existing Telegram users.
- Large Community Potential: Despite facing challenges, Telegram boasts a large community eagerly anticipating TON's
  development, potentially enabling rapid growth and widespread adoption upon deployment. In conclusion, TON holds
  promise in unlocking a new realm of decentralized applications and financial services utilizing blockchain technology,
  potentially contributing positively to the development of the blockchain community.

# B WHAT IS BITCOIN TON?

BITCOIN TON (BITTON): BITTON IS A DIGITAL CURRENCY BUILT ON THE TELEGRAM OPEN NETWORK (TON) PLATFORM, OFFERING A DIVERSE AND UTILITY-RICH ECOSYSTEM.

#### Ecosystem

- Stake (BITTON Stake): Bitton offers users the opportunity to participate in the network by staking BITTON. Through this, they not only secure the network but also have the chance to earn passive rewards from validating transactions.
- Swap (BITTON Swap): Bitton supports a flexible exchange platform, enabling users to easily swap Bitton with other cryptocurrencies.
- GameFi (BITTON GameFi): Bitton establishes a vibrant GameFi ecosystem, where users can use Bitton to engage in games and earn income from decentralized gaming platforms.
- Security and Utility: Bitton employs advanced security technologies like Proof of Stake (PoS) to ensure safety and transparency within the network. Additionally, integrating Bitton into the Telegram app creates a seamless user experience.
- Future: BITTON promises a promising future in utilizing blockchain for decentralized applications and financial services. The diversity and utility of the BITTON ecosystem will drive the development of user communities and networks.

### BITTON STAKING

## THE OPEN NET WORK ADVANTAGES OF STAKING CRYPTOCURRENCY

Allows Bittcoin staking on the blockchain network

Strict protection and safety in all transactions

Attractive features and rewards for users

### BITTONSWAP

#### DEX DECENTRALIZED SWAP PLATFORM

allows users to exchange different cryptocurrencies safely and efficiently

• Strict protection and safety in all transactions

Attractive features and rewards for users

### BITTON CROSS CHAIN

Bitton Cross Chain is a feature that enables integration between Bitton and other blockchains, facilitating interoperability and communication between different ecosystems. This opens up opportunities to expand and enhance Bitton's interaction with other blockchain projects.

### BITTON GAME LOTTERY

Bitton offers a Game Lottery platform where users can participate in games of chance and win significant rewards

Integrating blockchain technology ensures transparency and fairness for all players.

### BITTON NET

### Bitton NFT ecosystem

NFTs can represent various types of digital assets, from art to gaming and commercial ownership.

### PROFIT BITTON STAKING

#### STAKING PROFITS

- \$100-\$999 profits 0.6%/Days
- \$1000-\$4999 profits 0.7%/Days
- > \$5000 profits 0.8%/Days

 Investment package withdrawal period is 6 months from the starting date

#### TOKENNOMIC

Tokenomics BITTON revolutionizes economics by utilizing blockchain technology to create decentralized systems where tokens represent assets or utilities. It encompasses token creation, distribution, utility, governance, and economics, fostering decentralization, efficiency, and global accessibility. Tokenomics BITTON is transforming various industries, offering transparent, inclusive, and innovative economic models for the future.

#### QUARTER 1: TOKEN ISSUANCE (Q1)

- Launch Bitton token through a fair and transparent distribution mechanism.
- Establish partnerships with leading exchanges for Bitton listing to ensure liquidity and accessibility.
- Develop Bitton token wallets and integrate with major cryptocurrency wallets for easy management and storage.

#### QUARTER 2: STAKING IMPLEMENTATION (Q2)

- Introduce staking functionality for Bitton token holders, allowing them to earn rewards by securing the network.
- Implement a user-friendly staking interface, making it accessible to both novice and experienced users.
- Launch staking pools with attractive rewards and incentives to encourage widespread participation.

#### QUARTER 3: NFT ISSUANCE (Q3)

- Introduce Bitton NFT platform for creators to mint, buy, sell, and trade non-fungible tokens (NFTs) securely.
- Collaborate with artists, musicians, and content creators to launch exclusive Bitton NFT collections, driving adoption and utility.
- Implement interoperability features to enable seamless integration with other NFT marketplaces and ecosystems.

#### QUARTER 4: GAMEFI INTEGRATION (Q4)

- Partner with leading GameFi projects to integrate Bitton token as an in-game currency, enhancing user engagement and monetization opportunities.
- Launch Bitton-powered GameFi platforms, offering players unique gaming experiences and rewarding them with Bitton for their participation.
- Implement governance mechanisms allowing Bitton token holders to vote on key decisions regarding GameFi partnerships and developments.
